

Children Home Alone Program

“C.H.A.P.”

Description:

- Program will allow parents to register their home with the police department as having teens or pre-teens staying home without adult supervision, or with limited adult supervision (*see sample registration form*)
- Officers will pay special attention to the activities at these homes during routine patrol, and they will report strange or excessive activity to the parent(s) (*i.e. large group of children congregating, strange vehicles in drive etc.*).
- Provides some peace of mind to parents while they are working.
- Encourages children to follow the “house rules” set by the parents when they know the police will be checking on them periodically.

Education:

- Must clearly explain the program will not be a daily check of the home, but more of a periodic check as the opportunity arises during routine patrol.
- Not a babysitting service.
- The police department and the city are not encouraging people to leave their children at home expecting them to be looked after by police.
- Summer program will begin the day after the last school day and end on the first day of school in the fall, or when cancelled by the parent.
- Participants will receive check sheet at the end of program.
